DS-3E0109XX Series:

Applicable Models

This manual is applicable to DS-3E0105XX and DS-3E0109XX series 100M long-range PoE switch.

Symbol	Description
	Provides additional information to emphasize or supplement important points of the main text.
	Indicates a potentially hazardous situation, which if not avoided, could result in equipment damage, data loss, performance degradation, or unexpected results.
	Indicates a hazard with a high level of risk, which if not avoided, will result in death or serious injury.

NOTE
 - During the installation and utilization of the device, please strictly conform to electrical safety rules in different nations and regions.
 - Ensure to use the attached power adaptor only and not to change the adaptor randomly. Please refer to specification table for specific requirements of power adaptor.
 - Never attempt to disassemble the camera yourself. (We shall not assume any responsibility for problems caused by unauthorized repair or maintenance.)

WARNING
 - The device must be installed in machine room only, and only maintenance staff or qualified person should access to the device.
 - Do not touch the upper cover area of the device that may be overheated.
 - Power must be shut down during cable connection, device installation, and device configuration.
 - You shall acknowledge that the use of the device with internet access might be under network security risks, please strengthen protection for your personal information and data security. If you find the device might be under network security risks, please contact with us.
 - Configuration of all accounts and other security settings is the responsibility of the installer, and you shall keep user name and passwords properly.
 - Please keep all original packing materials properly. If the product does not work properly, pack the switch in its original packing materials for shipping. We shall not assume any responsibility for damages caused by improper packing materials during shipping.
 - The device is not certified for use in aircraft and other restricted areas. Please read the fire-proofed, because the switches are not compliant with the Limited Power Source (LPS) standard.

Device Connection

Connect your devices according to your actual networking requirements.

4-Port 10/100M PoE
 10/100M Unmanaged PoE Pro-Series

PoE Ports
 100M PoE ports connect to other PoE devices with network cable.
UPLINK
 100M network port connects to other switches with network cable.
PWR Indicator
 Solid means powered up normally. Unit means no power supply connected or power supply is abnormal.
PoE-MAX Indicator
 Solid/flashing means the output power of the switch will reach the upper limit, and the power supply may be abnormal if more devices are connected. Unit means power supplying is normal.

Rear Panel

DIP Switch

On: Extend model is on, connecting PoE port 1-4 (4 ports), 1-8 (8 ports).
 Off: Extend model is off.

Grounding Terminal

The grounding terminal connects with ground cable in case of lightning.

Power Port

Connect power port of the switch with power socket with power cord to provide power to the switch.

Power-On Checking

See the following table and check whether your devices are correctly connected. After proper connection, you can use your switch without doing any settings.

Please use the attached power cord in package to power up the switch.

Indicator	Status	Description
PWR	Solid	The switch is powered on normally.
	Unit	No power supply connected or power supply is abnormal.
	Solid	The port is connected.
Link/Act	Flashing	The port is transmitting data.
	Unit	The port is disconnected or connection is abnormal.
PoE	Solid	The switch provides power supply to PD normally.
	Unit	The switch is disconnected to PD or provides power supply to PD abnormally.
PoE-MAX	Solid /Flashing	The output power of the switch will reach the upper limit. The power supply may be abnormal if more devices are connected.
	Unit	The switch provides power supply to PD normally.

The switch supports auto MDI/MDIX of ports, you can use straight-through cable or crossover cable to connect the switch and opposite Ethernet devices.

Regulatory Information

FCC Information This product has been tested and found to comply with the limits for a Class A digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference when the equipment is operated in a residential area. This equipment may cause harmful interference in a residential area, and if not installed and used in accordance with the instructions in the manual, may cause harmful interference to radio communications. Operation of this equipment in a residential area is likely to cause harmful interference in which case the user will be required to correct the interference at his own expense.

Conditions This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions:
1. This device may not cause harmful interference.
2. This device must accept any interference received, including interference that may cause undesired operation.

EU Conformity This product and, if applicable, the supplied accessories too are marked with "CE" and comply therefore with the applicable harmonized European standards listed under the EMC Directive 2014/53/EU, the LVD Directive 2014/35/EU, the RoHS Directive 2011/65/EU.

Recycling Information Products marked with this symbol cannot be disposed of as unsorted municipal waste in the European Union. For proper recycling, return this product to your local supplier upon the purchase of equivalent new equipment, or dispose of it at designated collection points. For more information see: www.recyclethis.info

Waste Disposal This product contains a battery that cannot be disposed of as unsorted municipal waste in the European Union. See the product documentation for specific battery information. The battery is marked with this symbol, which may include lettering to indicate cadmium (Cd), lead (Pb), or mercury (Hg). For proper recycling, return the battery to your supplier or to a designated battery recycling center. For more information see: www.recyclethis.info

Industry Canada CE5-003 Compliance This device meets the CANICES 3 (A)/NMB 3(A) standards requirements.
